PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building and improving production web applications. Full-stack expertise across Next.js, React, Node.js, Express, PostgreSQL, MySQL, and Redis, with hands-on experience designing REST APIs, asynchronous job systems, database optimization, and third-party integrations. Promoted within a year for ownership of critical systems and consistent delivery.

PROFESSIONAL EXPERIENCE

Software Developer | ProSync Infotech *Aug 2026 – Present*

Optimize and build enterprise web applications across product research, workforce management, HR, and CRM systems, working across backend, database, and frontend layers.

- Optimized BrandForge backend queries and indexing and introduced pagination; improved client-side load speed by ~9×. Reduced server RAM usage by ~72% through optimization work on a TurboRepo-based workforce platform.
- Tech Stack: Next.js, React, Node.js, Express.js, PostgreSQL, MongoDB, TypeScript, TurboRepo

Software Developer (Contributor) | Nirvamo *Apr 2026 – Aug 2026*

- Contributed to development and maintenance of full-stack EdTech systems including LMS, ERP, and HRMS solutions, building features and resolving production issues.
- Worked across frontend and backend layers using GitLab feature branches and merge requests to ship fixes, enhancements, and end-to-end functionality.

Tech Stack: Next.js, React, Node.js, Express.js, MySQL

Freelance Web Developer *Remote | Part-time*

Akshta Enterprises Live *Apr 2026 – Jun 2026*

- Designed and built a responsive business website end-to-end, from requirements through deployment, translating client needs into a live production-ready solution.
- Owned architecture, implementation, deployment, and revisions while working directly with the client.
- Improved performance, SEO, accessibility, and responsive UX across desktop and mobile.
- Implemented EmailJS contact forms and direct WhatsApp integration for customer communication.

Tech Stack: React, Next.js, Node.js, Tailwind CSS, EmailJS, SEO Optimization

Software Developer | College Vidya *Noida | May 2024 – Apr 2026*

- Developed and maintained core modules of a production LMS/ERP platform serving 20,000+ students, supporting student lifecycle management, academic operations, and content delivery.
- Built a unified lecture management module integrating Microsoft Teams, Zoom, and Google Meet, including a backend workflow that resolved Microsoft Graph meeting/calendar limitations and automated attendance sync.
- Re-architected bulk email delivery from successive browser-driven API requests to a Redis + BullMQ asynchronous job system with workers and retries, eliminating browser dependency and improving campaign reliability.
- Designed and implemented RESTful APIs and database workflows supporting core academic and business processes; promoted within a year after taking ownership of critical modules and delivering engineering improvements.

Tech Stack: React, Next.js, Node.js, Express.js, PostgreSQL, Prisma, TypeScript, Redis, BullMQ

PERSONAL PROJECTS

BusinessOS Repo

Multi-tenant SME financial operating system built around a precision-safe double-entry ledger — In Progress

- Architecting a ledger-first platform with integer minor-unit accounting, atomic financial workflows, counterparty balances, RBAC, and audit-safe history.
- Designed immutable transaction flows using BigInt minor units, reversal transactions, snapshot balances, and multi-tenant workspace isolation.

Tech Stack: Next.js, React, TypeScript, PostgreSQL, Prisma, Better Auth, Resend, Tailwind CSS
